HAPPY NEW YEAR!

✈ **Notes from the December Meeting**

We were treated to good food and great company at the annual Christmas Party held at The Spouter Inn on December 2. A total of 48 people attended. Capt. Dick Collins gave an interesting and informative presentation about the contributions of Charles Taylor, the mechanic who designed and built the engine for the Wright Flyer. Capt. Collins has been instrumental in ensuring that Mr. Taylor got the recognition he deserved during the First Flight Centennial Celebration activities.
